| Ordering Options | Page 6 |

Our environmental Walk-in-chambers with internal dimensions of 6 m², 9 m², or 12 m² and a height of 2.3 m are an excellent choice for stability testing in pharmaceuticals, food & beverages, cosmetics, material testing, and many other fields of application.

They maintain perfect test conditions in a wide temperature ranges from 10°C to 50°C and relative humidity ranges from 20% to 90%.

In pharmaceutical fields, our Walk-in-chambers accommodate long-term and accelerated stability test conditions as specified in ICH Q1A (R2) for new drug substances and drug products.

WIC Series

Our Walk-in-chambers are designed and produced in Germany, while the temperature and environmental conditioners are made by Parameter Generation and Control in Black Mountain, North Carolina, USA. The chambers offer a wide range of features and benefits that perfectly meet the requirements of stability testing.

- > Pre-configured chambers in three standard sizes
- > Quick delivery times
- > No need for individual specifications

PRODUCT FEATURES

- Relative humidity accuracy of $\pm 2.5\%$
- Temperature accuracy of $\pm 1.5^{\circ}\text{C}$
- Duct work for proper distribution of air
- Highly insulated chamber panels with a U value of only $0.21 \text{ W/m}^2\text{K}$
- LED lighting with motion detector
- High-quality chamber elements, made in Germany
- Completely stainless steel interior
- Exterior service access
- 50 mm access port included, additional access ports available

BENEFITS

- Stable and uniform environment
- Fully complies with pharmaceutical regulations (ICH) for equipment
- Durable and corrosion-resistant
- Ease of operation
- Environmentally friendly refrigerant with GWP value of 547
- Maintenance can be performed with minimum disruption to climate conditioning
- Perfectly meets the requirements of the pharmaceutical industry
- 3-year warranty

Specifications:

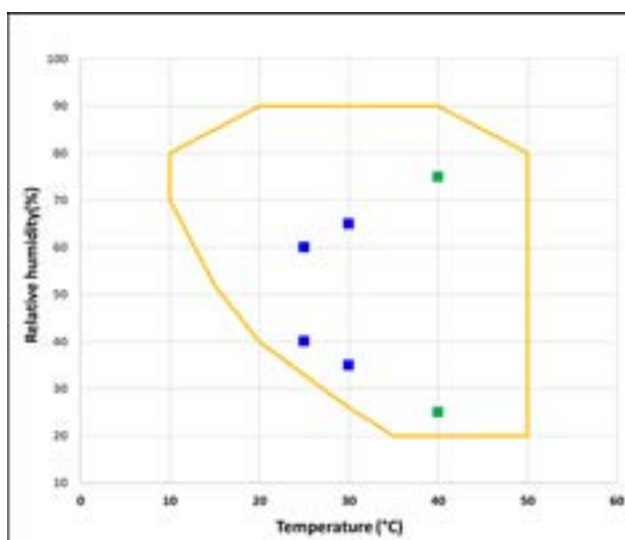

| | |
|------------------|---|
| Chamber elements | Galvanized sheet steel, polyester-coated, white, similar to RAL 9010, interior surfaces in stainless steel, 4 inch / 100 mm PU foam, U value: $0.21 \text{ W/m}^2\text{K}$ |
| Floor | Floor overlay: chrome-nickel steel, pattern-rolled 5WL Surface load: $50,000 \text{ N/m}^2$. Wheel load (rubber wheel): $1,000 \text{ N/4 cm}^2$ Wheel load (steel wheel): Not suitable for steel wheels |
| Door | Hinged door (single leaf), door leaf: 4 inches Clear door opening dimensions: 900 mm x 2,000 mm Door version with press lever Viewing window, triple-insulated, fixed glass Clear dimensions of window: 370 mm x 370 mm |

TECHNICAL DATA

Description

| Electrical | |
|--|--------------------------------------|
| Frequency | 50 Hz |
| Voltage (mains power) | 230 V |
| Phase | 1 |
| Full-load amps | 11 A, FLA |
| Typical running amps | 8 A, RLA |
| Minimum circuit ampacity | 13 A |
| Maximum external protector | 20 A |
| Maximum heat of rejection | 5,402 BTU/hr (1,361 kcal/hr) |
| Heaters, air | 694/918 W |
| Water | |
| Process water max. pressure | 8.6 bar |
| Process water min. pressure | 0.02 bar |
| Process water max. usage | 40 l/d |
| Max. condensate production | 11.4 l/d |
| Temperature and relative environmental control | |
| Temperature range | 10–50°C |
| Acceptable ambient range | 18–35°C |
| Temperature variation (spatial) | ±1.5 K |
| Temperature fluctuation (temporal) | ±0.5 K |
| Relative environmental range | 20–93% RH (limited to 7°C dew point) |
| Relative humidity constancy | ±2.5% RH |
| Refrigerant | |
| R450A | 0.4 tons CO ₂ / 547 GWP |

TEMPERATURE ENVIRONMENTAL CHART

- ICH long-term stability testing
- Accelerated stability testing

FEATURES & ACCESSORIES

Lockable door. Even when locked, the door can be opened from the inside at any time.

Lighting with motion sensor

Interior walls and ceiling: stainless steel
 Heavy-duty shelves
 Shelf height: 1,800 mm
 4 shelf levels as standard; additional shelves available as an option
 Chamber lighting with motion detector as standard
 Robust stainless steel trolley ramp for safe and convenient access

Conditioner positioned at back of chamber
 Low-noise operation and tidy connection lines
 Technology hidden from view at the front; external service access point
 Conditioner can be positioned at front as an option

INSTALLATION REQUIREMENTS

Installation requirements:

- Flat, level floor
- Electrical power supply: 230 V / 50 Hz, 11.5 A
- Feed water (tap water or softened water)
- Drain water hose / connection
- In-house transportation to side of installation: to be done by customer
- Chamber: clearance to walls > 40 mm; clearance to door side: 1,100 mm
- Conditioner: clearance to walls > 915 mm

WIC Series

WIC 1 | Door on short side

Conditioner footprint: 362 mm x 586 mm

Shelf

Door & ramp

WIC 2 | Door on short side

WIC 2 | Door on long side

WIC 3 | Door on short side

WIC 3 | Door on long side

DIMENSIONS (CHAMBER W/O CONDITIONER, ACCESSORIES)

| Chamber sizing options | | | | | |
|------------------------|------------|----------|----------|----------|----------------------------|
| Size | Dimensions | Side 1 | Side 2 | Height | Usable space (shelves) |
| WIC 1 | Outer | 2,600 mm | 2,500 mm | 2,470 mm | 187 cb. ft. / 5,295 liters |
| | Inner | 2,400 mm | 2,300 mm | 2,270 mm | |
| WIC 2 | Outer | 2,600 mm | 3,600 mm | 2,470 mm | 264 cb. ft. / 7,476 liters |
| | Inner | 2,400 mm | 3,400 mm | 2,270 mm | |
| WIC 3 | Outer | 2,600 mm | 4,700 mm | 2,470 mm | 342 cb. ft. / 9,685 liters |
| | Inner | 2,400 mm | 4,500 mm | 2,270 mm | |
| *with shelf set | | | | | |
| Conditioner, vertical | Outer | 362 mm | 586 mm | 1,956 mm | |

ORDERING OPTIONS FOR WALK-IN-CHAMBER MODEL

| Walk-in-chamber model | Description | Order no. |
|-----------------------|-------------------------|-----------|
| WIC 1 (230 V) | Walk-in-chamber, size 1 | 9800-0011 |
| WIC 2 (230 V) | Walk-in-chamber, size 2 | 9800-0012 |
| WIC 3 (230 V) | Walk-in-chamber, size 3 | 9800-0013 |

ORDERING OPTIONS FOR ACCESSORIES

| Accessory | Description | Order no. |
|------------------------------|-------------------------------------|-----------|
| Ramp for all WIC models | Suitable for all WIC models (230 V) | 8012-2239 |
| Shelf set for WIC 1 | Suitable for WIC 1 (230 V) | 8012-2240 |
| Shelf set for WIC 2 | Suitable for WIC 2 (230 V) | 8012-2241 |
| Shelf set for WIC 3 | Suitable for WIC 3 (230 V) | 8012-2242 |
| Universal access port, 30 mm | Suitable for all WIC models (230 V) | 8012-2293 |
| Universal access port, 50 mm | Suitable for all WIC models (230 V) | 8012-2294 |
| Monitoring system, APT-COM | Suitable for all WIC models (230 V) | 9423-0069 |

SERVICES

| Description | Order no. |
|--|-----------|
| Installation and commissioning | DL10-0800 |
| IQ-OQ qualification | DL40-0200 |
| Temperature & humidity measurement, 13-1 points, at a given climatic point | DL30-0113 |
| Service (preventive maintenance) | DL20-1000 |
