BINDER
Best conditions for your success

OUR RESPONSIBILITY

Making decisions with sustainability and the longer term in mind is something we do as a matter of course – as is upholding our commitment to pursuing environmental goals without compromise. We maintain an end-to-end approach that extends from our production chain right through to our customer service.

We do this because our goal is to make a significant technical contribution to improving human health and safety.

Safe. Reliable. Smart. Economical.

Do you have a question or would you like advice? Please feel free to contact us.

BINDER
Best conditions for your success

Product overview

BINDER SIMULATION CHAMBERS

Incubators | Ultra-low temperature freezers
Drying ovens | Climate chambers
Battery test chambers

BINDER
Best conditions for your success

BINDER PREMIUM PRODUCTS

Perfect for applications in scientific and industrial laboratories

Incubation and plant growth

FIELDS OF APPLICATION

- Microbiology
- Cell and tissue cultivation
- Drug research
- Photostability test
- Plant biology

Cold storage

- Deep-freeze sample storage
- Long-term storage

Drying and tempering

- Heat treatments
- Material tests

Environmental simulation

- Stability testing
- Shelf-life testing
- Material tests
- Battery testing
  - Aging tests
  - Performance tests
  - Stress tests

PRODUCT SELECTION

INCUBATORS

- CO_2 incubators
- Standard incubators
- Cooling incubators

GROWTH CHAMBERS

- Plant growth chambers

FREEZERS

- Ultra low-temperature freezers

DRYING CHAMBERS

- Drying and heating chambers
- Vacuum drying chambers

CLIMATE CHAMBERS

- Constant climate chambers
- Climate chambers with light
- Dynamic climate chambers
- Walk-in-chambers

BATTERY TEST CHAMBERS

- Temperature test chambers
- Climate test chambers
- Individualized battery test chambers

THE IDEAL COMPLEMENT FOR THE BINDER CHAMBER

Multi Management Software

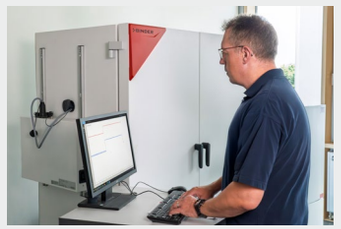

APT-COM™ 4 software for logging, programming, and monitoring up to 100 connected simulation chambers.
Editions:

- BASIC
- PROFESSIONAL
- GLP

Services

- Maintenance, installation
- Calibration
- Qualification & validation
- Spare parts service
- Technical support

Customized Solutions

Adjustments in line with customer requests

- Access ports
- Telescopic drawers
- Viewing window
- Fittings
- And much more
